

K-LOVE (106.7 FM in my local area) definitely serves me as a local resident. I listen to K-LOVE most of the time that I listen to the radio. It keeps me informed about events going on around the area and uplifts me when I am not having a good day. If this station were no longer on the air I would be truly affected. The community would be affected as well. As I said, the music on K-LOVE is uplifting and family friendly. There are NO other stations that are family friendly!! This station serves as a witness to those who do not get to hear the message of Jesus Christ. This is definitely a station that serves the public interest. Please don't take my station off the air!!!
